Hi Mark,

Just following up to see if you had any thoughts on what might be shared prior to the meeting.
Thanks.
Debra

When confirming the time of the meeting for next Monday (2/24), the registrant said "It would be really helpful if we can understand where BEAD is coming from with their numbers in advance of the call."

Ex. 5 Deliberative Process (DP)

Let me know.
Thanks,

Debra

Subject: Aldicarb - Registrant is requesting call to discuss %PCT used in dietary analysis. Who should be invited?

Hi Monisha / Hope

We recently had a conversation with the registrant (Pyxis) on the aldicarb new use petition for use on citrus in Florida and Texas. They took our risk concerns back to their client (AgLogic) and requested the data points used in the DEEM assessment that reached a food-only 117% of the aPAD (children 1-2 yrs). This also included the %PCT used in this analysis provided in the draft BEAD review from November.

They have asked for conference call to discuss BEAD's findings on how the %PCT was determined and I'm sure argue their case that the %PCT we used was too high.

In order to determine a time for this call, who from BEAD should I be including in the discussion with Pyxis and AgLogic.

Please let me know who should be on the invite list and I will start making plans to find mutually acceptable times for EPA and the registrant for this discussion.

Thank you in advance for your assistance.

Debra
